ECS (JUNIOR KINDERGARTEN / KINDERGARTEN)

[redacted]

Dear ASASA families/students,

We wish you all a wonderful start to the month of May as we embark on our final two months of school. We want to express our heartfelt appreciation for all the support and co-operation you have extended since the start of the school year. We hope to continue this successful relationship with you in the coming days!

Theme of the month

Animal Chronicles

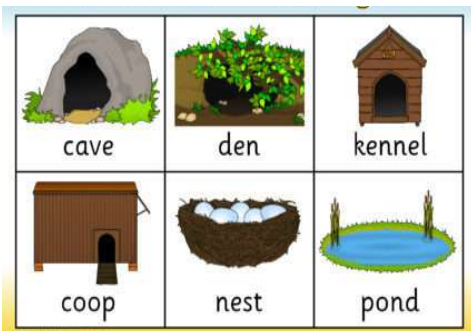

Tales from the Farmyard to the Jungle. Children will discover the relationships that people and animals share. They will learn about domesticated animals that live with us at home, those that are raised on farms and animals found in the wild.

Children will also explore various habitats that animals live in. They will be able to:

- discuss the importance that animals have in the environment.
- comprehend and speak about animals as pets and as a food source.
- students will be able to discover the various evolutionary traits animals have developed over time.

Concepts We Will Be Covering This Month

Numeracy: This month students will be introduced to the topic of **addition** and **subtraction** (digits 1-10). Students will expand their mathematic vocabulary to include add, equal, counting on, less, numbers put together and take away.

Literacy: We will cover the topics rhyming words, words family this month. Jolly Phonics blending words will also be part of this months' learning.

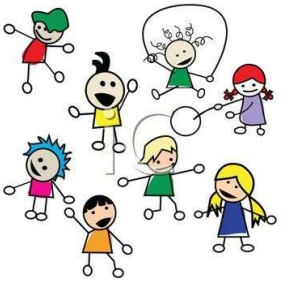

Self- Expression activities: The weekly show and tell activity every Friday will be accompanied with a Talent Show and Science Fair. This will help to build students' confidence in self-expression. Students will learn to express themselves through language, art, movement, and music.

Social studies: This month students will explore the theme of ***Animal Chronicles*** with various sub-topics, theme-related art and show and tell activities.

Physical skills and well-being: Students will develop attitudes and behaviors that promote a healthy lifestyle, wellness and safety for self and others.

Science Fair: Students are invited to do any age-appropriate science projects. They will demonstrate these in front of their peers on Friday May 31 (Pinetown) / Thursday May 30th (Westwind's) 2024. Here are some websites for reference:
