February: A month of Celebrations!

In February, we will be celebrating a variety of exciting events with engaging activities, presentations, and plenty of fun crafts for our students.

100th Day of School: This month, we will be celebrating our 100th day of school! To mark this special milestone, we engage in fun and creative craft activities on Tuesday, February 24th.

Valentine's Day: On February 9th ,students and teachers will come together to celebrate this special day through engaging and creative craft activities. The celebration will focus on love, kindness, and friendship, allowing children to show their creativity and express gratitude and appreciation for their parents and classmates.

Family Day: We will honor the essence of family, love, and care on February 11th with engaging activities and heartfelt songs. This special day will be full of joy, creativity, and meaningful experiences, allowing children to reflect on and celebrate the relationships that strengthen our community.

Pink Shirt Day: We are thrilled to celebrate Pink Shirt Day on February 25th! Through fun and meaningful activities, students will learn about kindness, inclusion, and standing up against bullying, spreading messages of respect and compassion throughout our school community.

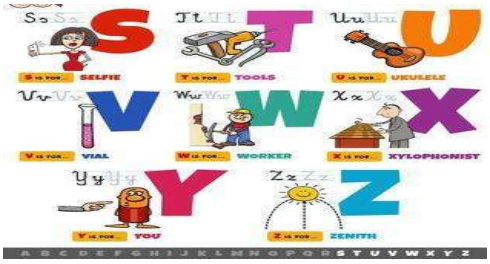

Picture Day: Picture Day is coming up on February 10th! Lifetouch will be at the school to photograph all students. Please make sure your child arrives dressed in their school uniform on this day.

REMINDERS

Uniform: Please make sure your child wears uniform daily, unless otherwise indicated by the teachers.

Label your child's belongings: Kindly label all jackets, hoodies, boots, shoes, hats, mittens, water bottles, and snack containers with your child's name. Un-labelled items may end up in the Lost and Found.

WHAT WE ARE LEARNING

ENGLISH LANGUAGE ARTS

We will focus on letters **S to Z** and will also introduce important Kindergarten sight words such as **I, me, he, she, you, and we**. Through engaging activities, children will strengthen their early reading and word recognition skills.

SCIENCE and Social Studies

We will also focus on important social themes and values. Students will learn about **kindness**, the **values of family and friendship**, and explore ways to **reduce, reuse, and recycle** to help **protect the environment**. These activities encourage social responsibility, caring for others, and awareness of the world around us.

PHYSICAL SKILLS & WELL BEING

We aim to cultivate attitudes and habits that promote a healthy lifestyle, encouraging our little learners to prioritize their wellness and safety. Children will learn to take responsibility for making choices that support their physical, mental, and emotional well-being. Additionally, they will build confidence and communication skills through weekly Show and Tell activities, where they can share personal experiences, express their thoughts, and engage positively with their peers.

NUMERACY

We will learn concepts such as **what comes before, after, and between numbers 1 to 10**, and explore **5-frame and 10-frame activities** as well as **number lines**. These hands-on activities will help strengthen their **number sense and early math skills**.
